## Opis produktu

### Diodowa lampa warsztatowa 60+1 led YT-0852 YATO

Discover the power of efficient lighting with the **Diodowa lampa warsztatowa 60+1 LED YT-0852** from **YATO**, designed to illuminate your workspace with ease. This state-of-the-art lamp utilizes 60 LED lights plus an additional LED to deliver an impressive brightness of approximately 13,000 MCD, ensuring your work area is well-lit and more productive.

Equipped with a powerful 800 mAh battery, this wireless lamp promises up to 4 hours of continuous use, making it a reliable companion for extended work sessions. Whether you're in a workshop, garage, or any work environment, the **YATO YT-0852 LED lamp** caters to your needs with its versatile design.

Featuring a convenient hook and a magnetic base, the lamp can be easily hung or attached to any metallic surface, allowing for hands-free operation and adding to its practicality. Whether you're dealing with intricate repairs or require consistent lighting for detailed work, this lamp adapts to various scenarios.

Beyond its functionality, the **YT-0852 LED workshop lamp** is designed to withstand challenging work conditions. Its water-resistant construction ensures it remains a dependable source of light in moist or damp environments, emphasizing durability alongside performance.

Upgrade your lighting solutions with the **Diodowa lampa warsztatowa YT-0852 YATO**, and experience enhanced visibility and efficiency in your workspace. YATO continues to deliver innovative and dependable tools and accessories, and this LED lamp is no exception, offering a blend
